No. 253.—It is hereby notified for public information that the undermentioned jodi and kayamgutta villages, which have been duly attached in satisfaction of the arrears of revenue due to Government (as shown in the subjoined statement) by the said jodidars and kayamguttadars, will be sold by public auction at the places and on the dates mentioned in the annexed statement. The sale will commence at 11 A. M. on the dates specified, and the villages will be knocked down to the highest bidder without reserve.

2. Provided that when a village is divided into separate recognized vrittis, the Deputy Commissioner may at his option, instead of selling the village as a whole, sell each vritti separately.

3. The purchaser will be required to deposit 25 per cent of the purchase money at the time of sale, and where the remainder of the purchase money may not be paid within fifteen days from the day of sale, the money so deposited shall be liable to forfeiture.

4. When such deposit shall not be made, nor the remaining purchase money paid up, the lands shall be re-sold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

6. The sale shall be stayed; if the defaulter, or any other person acting on his behalf, or claiming an interest in the land, tenders the full amount of the arrears of revenue with the interest and other charges, provided such tender be made before sunset on the day previous to that appointed for the sale.

7. The sale of the property will not become absolute until the sale has been confirmed by the Dewan.

8. Purchasers having completed the payment of the purchase money will, as soon as the sale has been confirmed by the Dewan, be placed in immediate possession, and the village will be registered in the name of the purchaser, and a certificate of sale signed and sealed by the Deputy Commissioner will be granted to him. It is to be distinctly understood that the Government are not responsible for errors of description and in estimated extent.

9. Provided parties deeming themselves aggrieved by the sale shall be at liberty to appeal to the Dewan within 30 days from the day of sale, and the purchase shall be conditional on the final order in such appeal.

No. 271.—With a view to prevent the hardship consequent upon the sale of whole inam villages in satisfaction of arrears of Government revenue due thereupon, the following rules for the recovery of revenue arrears due from whole inam villages, are sanctioned :—

I. Until further orders no inam village shall be sold for revenue arrears.

II. The Deputy Commissioner shall cause any inam village in respect of which an arrear is due, to be attached, and arrange for its management by the Amildar of the Taluk in which it is situated, on behalf of the Government.

III. The lands of any village so attached shall revert to Government unaffected by the acts of the inamdar or any of the sharers, or by any charges or liabilities subsisting against such lands, or against such inamdar or sharers as are interested therein so far as the public revenue is concerned, but without any prejudice in other respects to the rights of individuals.

IV. The Deputy Commissioner shall cause a detailed survey and settlement to be introduced into any inam village attached and taken under Government management under Rule II.

100

V. The Deputy Commissioner shall be entitled to manage the village attached and to receive all rents and profits accruing therefrom to the exclusion of the inamdar or any of the sharers thereof, until the Deputy Commissioner restores the said inamdar to the management thereof.

VI. All surplus profits of the village attached, beyond the cost of such attachment and management, including the payment of the current revenue and the cost of the introduction of a Revenue survey, shall be applied in defraying the said arrear.

VII. The village so attached shall be released from attachment and the management thereof shall be restored to the inamdar on his making an application to the Deputy Commissioner for that purpose at any time within 12 years from the 1st August next after the attachment, if, at the time such application is made, it shall appear that the arrear has been liquidated, or if the said inamdar shall be willing to pay the balance, if any, still due by him and shall do so within such period as the Deputy Commissioner may prescribe in that behalf.

VIII. The Deputy Commissioner shall make over to the inamdar the surplus receipts, if any, which have accrued in the year in which his application for restoration of the village is made, after defraying all arrears and costs; but such surplus receipts, if any, of previous years shall be at the disposal of Government.

IX. If no application be made for the restoration of the village within the said period of 12 years, or if after such application has been made, the inamdar shall fail to pay the balance, if any, still due by him, within the period prescribed by the Deputy Commissioner in this behalf, the said village shall thenceforward vest in Government free from all incumbrances created by the inamdar or any of the sharers, or any of his or their predecessors in title, or in any wise subsisting as against such inamdar, or any of the sharers, but without prejudice to the rights of the actual occupants of the soil.

X. A register of inam villages attached under these rules shall be kept in the Deputy Commissioner's Office in the accompanying form, and an extract therefrom shall be submitted to the Dewan's Office for record, with a report showing the circumstances under which the village has been brought under attachment.

XI. The above rules shall apply to all attached inam villages the sale of which has not been confirmed by the Dewan up to the date of this order.

The sale will commence at 11 A. M. on the dates specified, and the villages will be knocked down to the highest bidder without reserve.

8. No. 271.—With a view to prevent the hardship consequent upon the sale of whole inam villages in satisfaction of arrears of Government revenue due thereupon, the following rules for the recovery of revenue arrears due from whole inam villages, are sanctioned :—

I. Until further orders no inam village shall be sold for revenue arrears.

II. The Deputy Commissioner shall cause any inam village in respect of which an arrear is due, to be attached, and arrange for its management by the Amildar of the Taluk in which it is situated, on behalf of the Government.

III. The lands of any village so attached shall revert to Government unaffected by the acts of the inamdar or any of the sharers, or by any charges or liabilities subsisting against such lands, or against such inamdar or sharers as are interested therein so far as the public revenue is concerned, but without any prejudice in other respects to the rights of individuals.

IV. The Deputy Commissioner shall cause a detailed survey and settlement to be introduced into any inam village attached and taken under Government management under Rule II.

108.

V. The Deputy Commissioner shall be entitled to manage the village attached and to receive all rents and profits accruing therefrom to the exclusion of the inamdar or any of the sharers thereof, until the Deputy Commissioner restores the said inamdar to the management thereof.

VI. All surplus profits of the village attached, beyond the cost of such attachment and management, including the payment of the current revenue and the cost of the introduction of a fresh revenue survey, shall be applied in defraying the said arrear.

VII. The village so attached shall be released from attachment and the management thereof shall be restored to the inamdar on his making an application to the Deputy Commissioner for that purpose at any time within 12 years from the 1st August next after the attachment, if, at the time such application is made, it shall appear that the arrear has been liquidated, or if the said inamdar shall be willing to pay the balance, if any, still due by him and shall do so within such period as the Deputy Commissioner may prescribe in that behalf.

VIII. The Deputy Commissioner shall make over to the inamdar the surplus receipts, if any, which have accrued in the year in which his application for restoration of the village is made, after defraying all arrears and costs; but such surplus receipts, if any, of previous years shall be at the disposal of Government.

IX. If no application be made for the restoration of the village within the said period of 12 years, or if after such application has been made, the inamdar shall fail to pay the balance, if any, still due by him, within the period prescribed by the Deputy Commissioner in this behalf, the said village shall thenceforward vest in Government free from all incumbrances created by the inamdar or any of the sharers, or any of his or their predecessors in title, or in any wise subsisting as against such inamdar, or any of the sharers, but without prejudice to the rights of the actual occupants of the soil.

X. A register of inam villages attached under these rules shall be kept in the Deputy Commissioner's Office in the accompanying form, and an extract therefrom shall be submitted to the Dewan's Office for record, with a report showing the circumstances under which the village has been brought under attachment.

XI. The above rules shall apply to all attached inam villages the sale of which has not been confirmed by the Dewan up to the date of this order.

I. Until further orders no inam village shall be sold for revenue arrears.

II. The Deputy Commissioner shall cause any inam village in respect of which an arrear is due, to be attached, and arrange for its management by the Amildar of the Taluk in which it is situated, on behalf of the Government.

III. The lands of any village so attached shall revert to Government unaffected by the acts of the inamdar or any of the sharers, or by any charges or liabilities subsisting against such lands, or against such inamdar or sharers as are interested therein so far as the public revenue is concerned, but without any prejudice in other respects to the rights of individuals.

IV. The Deputy Commissioner shall cause a detailed survey and settlement to be introduced into any inam village attached and taken under Government management under Rule II.

V. The Deputy Commissioner shall be entitled to manage the village attached and to receive all rents and profits accruing therefrom to the exclusion of the inamdar or any of the sharers thereof, until the Deputy Commissioner restores the said inamdar to the management thereof.

VII. The village so attached shall be released from attachment and the management thereof shall be restored to the inamdar on his making an application to the Deputy Commissioner for that purpose at any time within 12 years from the 1st August next after the attachment, if, at the time such application is made, it shall appear that the arrear has been liquidated, or if the said inamdar shall be willing to pay the balance, if any, still due by him and shall do so within such period as the Deputy Commissioner may prescribe in that behalf.

VIII. The Deputy Commissioner shall make over to the inamdar the surplus receipts, if any, which have accrued in the year in which his application for restoration of the village is made, after defraying all arrears and costs; but such surplus receipts, if any, of previous years shall be at the disposal of Government.

IX. If no application be made for the restoration of the village within the said period of 12 years, or if after such application has been made, the inamdar shall fail to pay the balance, if any, still due by him, within the period prescribed by the Deputy Commissioner in this behalf, the said village shall thenceforward vest in Government free from all incumbrances created by the inamdar or any of the sharers, or any of his or their predecessors in title, or in any wise subsisting as against such inamdar, or any of the sharers, but without prejudice to the rights of the actual occupants of the soil.

X. A register of inam villages attached under these rules shall be kept in the Deputy Commissioner's Office in the accompanying form, and an extract therefrom shall be submitted to the Dewan's Office for record, with a report showing the circumstances under which the village has been brought under attachment.

(1) The officer, immediately on receiving the order of transfer, must furnish a copy thereof to the Civil Accountant General of the Province within which he is serving, and must apply for orders to whom he is to account for the contribution required.

(2) The officer to whom he is to account is determined as follows :—

(*b*) Otherwise—it will be the Accountant General of the Province within which the Municipality, Port Trust, Local Fund, or other body concerned is situated; or if the case is one of service under a Native State, the Accountant General of the Government under whose administration the Native State is.

POSTAL NOTICE.

Madras, 4th July 1883.

Arrangements have been made for the sorting in the Railway Mail Service carriages of letters intended for delivery at the various Suburban Post Offices in Madras. The effect of these arrangements is that the Mail bags for Suburban Post Offices are sent in Mail Carts direct from the Central Railway Station to their destinations and are there made over to the Postmen for delivery instead of being sent as formerly to the General Post Office where the Mails for the Suburban Post Offices were sorted. The delivery of letters is, by this arrangement, accelerated by at least one hour.

For the purpose of this Suburban delivery, Madras has been divided into Postal Districts as given below, and letters bearing the name of the Postal District for which they are intended will meet with no delay, whereas letters addressed merely Madras may be subjected to delay in having to be sent to the General Post Office for fuller information as to whereabouts of the addressee. The public by having the name of the Postal District written on their correspondence can therefore not only assist the Post Office but ensure prompt delivery of their own correspondence.

GENERAL DEPARTMENT.

REVISED RULES FOR THE SUPPLY OF STATIONERY AND FORMS.

The 29*th August* 1883.

With a view to enforce further economy in the use of stationery in the Public Offices and Departments of this Government, the Comptroller, by desire of the Dewan, has the honor to request the attention of Public Officers of all grades to the existing rules. They are contained in General Circular

No. 8277-9—151, dated 16th November 1876, issued under authority of the late Government, and the points to which special attention is now desired are the following :—

I. It is observed that much needless expense is still incurred by the unauthorized use of the more costly descriptions of paper where the cheaper kinds both in quality and size are suitable. Heads of Offices are therefore requested to see that the injuctions on this head are *strictly* adhered to, namely :—

(*a*). Drafts of letters, dockets, memorandums, &c ; depositions of witnesses and parties in any Court including the Judge's notes of evidence and the like.	To be written on French Foolscap.
(*b*). Judgments, decrees and other proceedings of a Court.	Machine-made Foolscap.
(*c*). Figured statements.	Office copies to be prepared as a rule on French Foolscap larger statements on country cartridge or Badami paper.
(*d*). Fair copies of the above.	On Machine-made Foolscap or on Printing Paper according to size.
(*e*). Office covers and envelopes.	For ordinary packets "Badami" Paper, for heavy packets country cartridge ; envelopes for notes or chits to be made up in French Foolscap in all District Offices. Europe envelopes will be supplied to the chief offices only.
(*f*). Blank books and Record registers.	These are made up of Machine-made or Printing Paper of sizes and no other should be asked for. At the same time Heads of Offices should carefully avoid indenting for a larger *number* of blank books than is absolutely necessary, stating the purposes for which they are required in all cases.
(*g*). Royal, Medium, Demy and Hand-made Foolscap.	These expensive kinds of paper are rarely needed and will not be issued except on special grounds which should be fully stated in the indent.

II. With the view of simplifying the preparation of indents, both for stationery and for printed forms, Heads of Offices are requested to observe the following rules :—

The annual estimates for stationery prescribed in para X of the Rules of 17th November 1876 are no longer necessary ; but in cases where an officer anticipates that he will require an unusual quantity of paper or other articles of a special description, he must give at least 3 months' notice to the Stationery Department, stating the purpose with other necessary particulars.

Indents for Stationery.

An Annual Indent for stationery for each ensuing official year will be prepared as at present by every officer and submitted *in duplicate* within the first 15 days of January every year through the Head of his Department, showing—

(1). Actual consumption during 12 months ending 31st December.
(2). Stock in hand on 31st December.
(3). Supplied for the current official year 188
(4). Required for ensuing official year 188
(5). Passed by the Head of Department.

To the above will be added columns for showing the quantities admissible as per scale and rule and those actually supplied by the Stationery Depôt (see revised form of Indent annexed, No. I).

In framing indents to be submitted in January 1884, care should be taken to base the estimate of requirements not upon the consumption of the previous year but upon what will probably be required for use in strict accordance with the rules.

The Head of each Department, after examining and revising these stationery indents by comparing those of kindred offices and with due regard to the requirements of each, will countersign and forward them in original to the Comptroller in the Stationery Department, together with a consolidated statement

which should reach the Stationery Depôt not later than 15th February exhibiting the demands of each office as passed by the Head of the Department (see revised form of Consolidated Indent annexed, No. II.)

III. *Printed Forms.*

(*a*) Annual Indents for printed forms will be prepared in the revised form annexed, No. III showing the consumption, stock in hand, &c., as in the case of stationery indents. They will be submitted *in duplicate* to Heads of Departments during the first 15 days of January in each year accompanied by specimens carefully numbered. (The number once given to a form must not be altered as it is by this number that it is known in the Stationery Depôt and the Government Press). Heads of Departments after examining and revising the Indents will enter the quantity passed by them, countersign and forward the indents (original and duplicate) to the Stationery Depôt accompanied by the samples so as to reach this office not later than 15th February.

(*b*) The description of paper proposed for the forms will also be noted against each by the Indenting Officer and eventually determined by the Stationery and Printing Departments in communication when necessary with the Heads of Offices as heretofore. Ordinarily, Badami or French Foolscap will be used, and Printing Paper will be used only when the forms cannot be printed on cheaper paper. If in any case forms on other paper are required, the Indenting Officer must specify his reasons fully in his indent.

(*c*) In framing indents for forms, Heads of Offices are requested to exercise due care so as to obviate asking for a larger number than may be reasonably necessary.

(*d*) The forms now in use should also be revised by Heads of Offices and Departments as it is believed that some may have become useless or superfluous and others may be found on enquiry to require alteration.

In order to secure the full co-operation of the various Departmental Heads and to point out the cost of the different kinds of paper now used, a table showing the comparative value of each kind is subjoined.

Such of the Rules contained in the late Chief Commissioner's Circular of 16th November 1876 as are not affected by the foregoing Revised Rules will be still in force.

By Order,
H. HUDSON,
Comptroller, Stationery Dept.

Simla, the 24th October 1883.

No. 84.—The following Regulations respecting the Examination of Candidates, for the Civil Service of India, to be held in June 1884, are published for general information :—

EXAMINATIONS FOR THE CIVIL SERVICE OF INDIA.

REGULATIONS FOR THE OPEN COMPETITION OF JUNE, 1884.

N. B.—The Regulations are liable to be altered in future years.

1. On the 3rd June, 1884, and following days, an Examination open to all qualified persons, will be held in London (*a*). Not fewer than persons will be selected, if so many shall be found duly qualified; *viz.*, for the Lower Provinces of Bengal (including Assam); for the Upper Provinces of Bengal (including the Punjab and Oudh); for Burma; for Madras, and for Bombay (*b*).

2. No person will be deemed qualified who shall not satisfy the Civil Service Commissioners :—

(i.) That he is a natural-born subject of Her Majesty.

(ii.) That his age will be above seventeen years and under nineteen years on the 1st January, 1884. [*N. B.—In the case of Natives of India this must be certified by the Government of India, or of the Presidency or Province in which the Candidate may have resided.*]

(iii.) That he has no disease, constitutional affection, or bodily infirmity unfitting him, or likely to unfit him, for the Civil Service of India.

(iv.) That he is of good moral character.

3. Should the evidence upon the above points be *primâ facie* satisfactory to the Civil Service Commissioners, the Candidate, on payment of the prescribed fee (*c*), will be admitted to the Examination.

(*a*) An order for admission to the Examination will be sent to each Candidate on the 20th of May.

(*b*) The numbers will be announced hereafter.

(*c*) The fee (£5) will be payable by means of a special stamp according to instructions which will be communicated to Candidates.

The Commissioners may however, in their discretion, at any time prior to the grant of the Certificate of Qualification hereinafter referred to, institute such further inquiries as they may deem necessary; and if the result of such inquiries, in the case of any Candidate, should be unsatisfactory to them in any of the above respects, he will be ineligible for admission to the Civil Service of India; and, if already selected, will be removed from the position of a Probationer.

4. The Examination will take place only in the following branches of knowledge :—

6. The marks assigned to Candidates in each branch will be subject to such deduction as the Civil Service Commissioners may deem necessary (g), in order to secure that "a Candidate be allowed no credit at all for taking up a subject in which he is a mere smatterer."

7. The Examination will be conducted on paper and *viva voce*, as may be deemed necessary.

8. The marks obtained by each Candidate, in respect of each of the subjects in which he shall have been examined, will be added up, and the names of the several Candidates who shall have obtained, after the deduction above mentioned, a greater aggregate number of marks than any of the remaining Candidates, will be set forth in order of merit, and such Candidates shall be deemed to be Selected Candidates for the Civil Service of India, provided they appear to be in other respects duly qualified. Should any of the Selected Candidates become disqualified, the Secretary of State for India will determine whether the vacancy thus created shall be filled up or not. In the former case, the Candidate next in order of merit, and in other respects duly qualified, shall be deemed to be a Selected Candidate. A Selected Candidate declining to accept the appointment which may be offered to him will be disqualified for any subsequent competition.

(d) A considerable portion of the marks for English History and Literature will be allotted to the work selected by the Candidate. See Notice on p. 476. In awarding marks for this, regard will be had partly to the extent and importance of the periods or books selected, but chiefly to the thoroughness with which they have been studied.

(e) The Examination will range from Arithmetic, Algebra, and Elementary Geometry, up to the elements of the differential and integral calculus, including the lower portions of applied Mathematics.

(f) The standard of marking in Sanskrit and Arabic will be determined with reference to a high degree of proficiency, such as may be expected to be reached by a Native of good education.

(g) Marks assigned in English Composition and Mathematics will be subject to no deduction.

332

9. Selected Candidates, before proceeding to India, will be on probation for two years, during which time they will be examined periodically, with a view of testing their progress in the following subjects :— (*h*)

	Marks.
1. Law	1,250
2. Classical Languages of India—	
Sanscrit	500
Arabic	400
Persian	400
3. Vernacular Languages of India (each)	400
4. The History and Geography of India	350
5. Political Economy	350

In these Examinations, as in the open competition, the merit of the Candidates examined will be estimated by marks, and the number set opposite to each subject denotes the greatest number of marks that can be obtained in respect of it at any one Examination. The Examination will be conducted on paper and *vivâ voce*, as may be deemed necessary. The last of these Examinations will be held at the close of the second year of probation, and will be called the "Final Examination," at which it will be decided whether a Selected Candidate is qualified for the Civil Service of India. At this Examination Candidates will be permitted to take up any one of the following branches of Natural Science, *viz.*— Botany, Geology, or Zoology, for which 350 marks will be allowed.

10. Candidates will be tested during their probation as to their ability to perform journeys on horseback; and no Candidate will be deemed qualified for the Civil Service of India who fails to satisfy the Civil Service Commissioners of his competence in this respect.

11. Any Candidate who, at any of the periodical Examinations, shall appear to have wilfully neglected his studies, or to be physically incapacitated for pursuing the prescribed course of training, will be liable to have his name removed from the list of Selected Candidates.

12. The Selected Candidates who, at the Final Examination, shall be found to have a competent knowledge of the subjects specified in Regulation 9, and who shall have satisfied the Civil Service Commissioners of their eligibility in respect of nationality, age, health, character, and ability to ride, shall be certified by the said Commissioners to be entitled to be appointed to the Civil Service of India, provided they shall comply with the regulations in force, at the time, for that Service.

13. Persons desirous to be admitted as Candidates must apply on Forms, which may be obtained from "The Secretary, Civil Service Commission, London, S. W." at any time after the 1st December, 1883. The Forms must be returned so as to be received at the office of the Civil Service Commissioners on or before 31st March, 1884. (*i*).

The Civil Service Commissioners are authorized by the Secretary of State for India in Council to make the following announcements :—

(1.) *Selected Candidates will be permitted to choose, according to the order in which they stand in the list resulting from the Open Competition, so long as a choice remains, the Presidency (and in Bengal the Division of the Presidency) to which they shall be appointed; but this choice will be subject to a different arrangement, should the Secretary of State, or the Government of India, deem it necessary.* (*k*).

(2.) *The Probationers, having passed the necessary Examinations, will be required to report their arrival in India within such period after the grant of their Certificate of Qualification as the Secretary of State may in each case direct.*

(*i*) These forms should be accompanied by evidence on the points mentioned in Regulation 2, and by a list of the subjects in which the Candidate desires to be examined. Evidence of health and character must bear date not earlier than 1st March, 1884. Applications for leave to alter or add to the list of subjects named will not be entertained unless received on or before the 5th of May.

(*k*) This choice must be exercised immediately after the result of the Open Competition is announced, on such day as may be fixed by the Civil Service Commissioners.

333

(3.) *The seniority in the Civil Service of India of the Selected Candidates shall be determined according to the order in which they stand on the list resulting from the Final Examination.*

(4.) *An allowance amounting to £300 will be given to all Candidates who pass their probation at one of the Universities or Colleges which have been approved by the Secretary of State, viz., the Universities of Oxford, Cambridge, Glasgow, Edinburgh, St. Andrew's, and Aberdeen; Trinity College, Dublin; University College, London; and King's College, London; provided such Candidates shall have passed the required Examinations to the satisfaction of the Civil Service Commissioners, and shall have complied with such rules as may be laid down for the guidance of Selected Candidates.*

(5.) *All Selected Candidates will be required, after having passed the first periodical Examination, and before receiving the first instalment of their allowance, to attend at the India Office for the purpose of entering into an agreement binding themselves, amongst other things, to refund in certain cases the amount of their allowance in the event of their failing to proceed to India. A surety will be required.*

(6.) *After passing the Final Examination, each Candidate will be required to attend again at the India Office, with the view of entering into covenants, by which, amongst other things, they will bind themselves to agree to such Regulations for the provision of pensions for their families as may be approved by the Secretary of State for India in Council. The stamps payable on these covenants amount to £1.*

ADMINISTRATION REPORT ON THE MYSORE STATE RAILWAY FOR 1882—83, BY THE CONSULTING ENGINEER TO THE GOVERNMENT OF MYSORE.

The Preliminary Administration Report on the Railways in India for 1882—83, prepared by the Director General of Railways, was received in Office on 27th June 1883, and it is proposed to adopt the figures therein given for different Railways of the metre gauge and compare them with those for the Bangalore-Mysore Railway.

By a reference to Table **A** it will be seen that under Guaranteed Companies, Assisted Companies, Imperial, Provincial and Native States 4,591 miles Metre Gauge Railway have been sanctioned: of which 3,083¼ miles were open to traffic on 31st March 1883, leaving 1,867¾ miles to be finished. Of these totals, Mysore had 86 miles of line open and 43 miles under construction.

The column of Remarks, Table **A**, gives the nature of the different lines and the conditions under which they were and are being constructed. It may be noted that the South Indian Railway has been altered from broad gauge to metre, that the Nagpúr-Chattisgarh line will be altered from metre gauge to broad, and that the Assam Light Railway is being laid on a high road with 30 lbs. rails under a Government guarantee of 5 per cent for 20 years on a maximum capital of 16 lakhs of rupees.

During the passed 10 years from the time when the first metre gauge line was opened in India to the present moment, 3,083 miles of metre gauge railway have been completed for traffic, and under the policy lately recommended to the Secretary of State, progress in the future will be much more rapid than in the past.

A very small amount of Indian Railway capital is held by Natives.

Lines under Construction.—The plans and estimates for the Bangalore-Tumkur line, 43 miles, were submitted for the approval of the Government of India, and on 1st May 1882, a public loan of 20 lakhs bearing interest at 5 per cent and redeemable in 25 years was obtained. The work between Bangalore and Tumkur was given in contract at 3½ per cent below Government rates to Messrs. Arunachalam, Papanna and commenced on 11th September 1882 in the presence of His Highness the Maharaja of Mysore. The permanent-way material was ordered from England and the greater part of it arrived in Bangalore before 31st March 1883.

The expenditure on Bangalore-Tumkur line under construction from October 1882 to end of March 1883 is as under:—

		Rs.	Rs.

which gives a charge for establishment of 8·31 per cent on the actual construction in India or a charge of 2·05 per cent on the cost of labor and materials together, as against 8·44 per cent on Bangalore-Mysore line.

Lines under survey.—The plans and estimates of the Tumkur- Tiptur extension, 44 miles, were submitted to the Government of India for approval. The plans of the extension from Mysore to Nanjangud, 15 miles, were in course of preparation.

Light Railways.—The proposal of Mr. South for introducing light railways into Mysore is under consideration.

Lines open to Traffic.—Bangalore-Mysore 85·75 miles.

On pages 38—39 of the Director General of Railways Administration Report the capital expenditure on the Bangalore-Mysore line is shown at Rs. 44,59,270 appropriated under different heads of service up to 31st December 1882 with the large sum of Rs. 7,48,754 standing in suspense. The actuals on 31st May 1883 are now obtainable and are here inserted.

In all comparisons that may be made, in this report the actuals on 31st May 1883 amounting to Rs. 42,90,214 will be adopted.

On page 34 of Director General of Railways' Administration Report a statement is given showing the cost of each Railway on 31st December 1882 and the average cost per mile. The figures in column IV, page 34, give the "Average cost per mile "(exclusive of Steam-boat service and suspense)," and the same figures are repeated on page 53 wherein it is stated that they represent "Total Capital Outlay per mile "open excluding steamer service and suspense accounts".

The statement for metre gauge railways is as under :—

Statement showing Total Cost of each Metre Gauge Railway on 31st December 1882 and the average cost per mile.

which gives a result in favor of Mysore of Rs. 22,959 per mile open if suspense is excluded and of Rs. 23,843 per mile open if suspense is included.

It is now time to turn to details.

For comparison Table B has been prepared from the classified expenditure including suspense appropriated on some of the lines up to 31st December 1882. The South Indian Railway (Rs. 69,248 per mile) has to be omitted for want of detail, and the two short lines from Muttra are left out as the greater portion of their rails are laid upon the metalled high way and weigh only 30 lbs. per yard.

It is necessary before going into the detail of Table B to point out that the totals given by the Director General of Railways have been reduced in the following instances :—

Railway.	From.	To.
1. Rajputana-Malwa ..	9,21,17,606	7,94,22,831
4. Tirhoot	78,08,236	61,09,590
6. Cawnpore-Furruckabad ..	32,08,969	32,08,712

408

and the result of these reductions is that the average cost per mile of the metre gauge railways Nos. 1 to 7, with which Bangalore-Mysore Railway No. 8 is to be compared, has been reduced from Rs. 76,408 per mile to Rs. 69,317.

The result of Table B is as under :—

Classified Expenditure to 31st December 1882.

Heads of Service.	Average Cost of 1 mile on Railways Nos. 1 to 7.	Cost of 1 mile Mysore No. 8.	Percentage to Total Mysore.
	Rs.	Rs.	Per Cent
Preliminary Expenses	1,169	1,096	2·19

Receipts on Capital Account deducted...	62	100	0·20
Total.....	69,317	50,031	100

So that Mysore cost Rs. 19,286 less per mile than the average of 7 other lines, and this saving is obtained by a less cost under every head of service except suspense and then only does it exceed the average by Rs. 158 per mile.

But the foregoing deals with the average cost of construction on 7 other Railways, and it is now proposed to compare the cost per mile of the Bangalore-Mysore line with the actual cost per mile on each of the Railways already enumerated irrespective of their length.

Table C has therefore been prepared from Table B and it shows under every head of service the outlay per mile on 8 metre gauge railways including Mysore.

The details of construction of the 8 lines under review is given below :—

Railway.	Details of Construction.
Rajputana-Malwa	Single track. Rails 36 and 40 lbs. per yard laid on transverse deodar and creosoted pine sleepers. On the Rajputana line bridging is heavy. On the Holkar Railway work generally is heavy, and on Sindia-Neemuch the works with the exception of bridging are light.
Northern Bengal	Single track. Rails 40 lbs. per yard and sleepers of creosoted pine, sâl, red gum, and wrought and cast iron have been used. The bridging is heavy on the lower section.
Rangoon and Irrawady	Single track. Rails 40 lbs. per yard. Bridging is heavy ; other works are light ; country flat and low.

409

Railway.	Details of Construction.
Tirhoot	Rails 40 lbs. per yard on transverse sleepers chiefly deodar.
Nagpúr-Chattisgarh	Rails 40 lbs. per yard laid on creosoted pine, sál and teak wood sleepers.
Cawnpore-Furruckabad	Single track. Rails 40 lbs. per yard. Light work.
Bhavnagar-Gondal	Rails 40 lbs. per yard on half round sleepers. Land free.
Mysore	Rails 41¼ lbs. per yard laid on creosoted pine and teak sleepers. Bridging heavy. Twenty-two 30′ arches, forty-four 27½ feet arches and two 25 feet arches over the Cauvery at Seringapatam.

From the above it will be seen that Mysore uses a rail about 3 per cent heavier than the other lines.

The most expensive line is the Northern Bengal with its heavy bridging at Rs. 86,117 per mile and the cheapest is the Cawnpore-Furruckabad with its light works at Rs. 37,094 per mile.

Classified Expenditure per mile.—Table C.

Preliminary Expenses.—(Table C, Column A).

Mysore stands sixth on the list and the price per mile, Rs. 1,096, may be attributed to the surveys being so often repeated.

Land.—(Table C, Column B).—Bhavnagar-Gondal has paid nothing, and the lowest price per mile is Rs. 256 on Nagpúr and Chattisgarh. Mysore comes next with Rs. 447. The cost of Mysore Railway land can still further be reduced as many plots can be resold to the ryots especially in the paddy flats near Maddur, Attihalla and throughout the Cauvery valley.

Construction of Line.—(Table C, Column C).—Mysore, notwithstanding its large bridges, stands second with Rs. 11,793; the first being Cawnpore-Furruckabad costing Rs. 5,144.

Ballast and Permanent-way.—(Table C, Column D).—Mysore with its heavier rail and stone ballast stands fourth on the list with Rs. 17,462 expended per mile.

Stations and Buildings.—(Table C, Column E).—Mysore has spent Rs. 4,140 per mile and stands third. Probably as traffic develops, expenditure under this head may be increased by Rs. 1,000 per mile.

Plant.—(Table C, Column G).—The stock on Mysore line consists of—

Sub-heads.	Rupees.	Description.
Engineering Plant	34,640	Consists of Tools, Machinery, Instruments and Camp equipage.
Locomotive Plant	8,182	Tools and Machinery used for Locomotive purposes.
Carriage and Wagon Plant	3,250	Do for Carriage and Wagon.
Station and Office Furniture	15,491	Furniture in Offices and Stations.

410

The mileage rate of Rs. 717 will be reduced as soon as Tumkur line is opened.

Rolling Stock.—(Table C. Column 11).—Mysore has spent Rs. 7,000 per mile and the amount of stock is here given:—

Table J has been prepared showing in detail the number of engines and vehicles on other lines. It gives the following results:—

Quantity of Rolling Stock for 85·75 miles.

Class of Stock.	Average of 8 Lines.		Mysore.	Remarks.
Engines	17·5		12	
First Class Carriages	5·9		12	
2nd " "	4·6		6	
3rd or Intermediate	2·7		*53	*32 fitted with brakes.

Composite	2·7			
Miscellaneous Coaching	7·5			
Goods Vehicles	311		†161	†23 adapted for carrying passengers and 22 additional ordered under Tumkur indent.
Brake Vans	14		7	

As regards engines, Mysore with 1 to every 7 miles has sufficient for the present. In coaching vehicles Mysore has 71 against an average of 58, and further it can convert in a few minutes 25 of its covered goods wagons into passenger vehicles for use during fair time and festivals. Goods vehicles can be increased in number as traffic develops and brakevans can be provided to any extent on demand from the stock of 3rd class carriages fitted with brakes.

It is worthy of special remark that Mysore both in its Railway Workshops and by private firms has already commenced to construct vehicle stock in large numbers for other Railways in India—a very fair proof in itself that the material used is good, the workmanship sound and the price moderate.

Establishment.—(Table C. Column J).—Mysore has spent Rs. 4,222 per mile or 8·44 per cent of its total outlay. Mysore might have done better, but it made a mistake in employing a large superior establishment to supervise works piecemeal under limited grants.

There is nothing more fatal to economy in the construction of public works generally and of railways in particular. Taking the Mysore Railway and the experience gained thereon and applying it to the case of the Tumkur construction, the saving on that extension in establishment charges alone will amount to about Rs. 2,796 per mile or a sum of Rs. 1,20,228 on the 43 miles.

The mileage charge under this head on the Mysore Railway system will be reduced so soon as the Tumkur line is open to traffic.

Suspense.—(Table C. Column N).—The amount standing to debit of Mysore is Rs. 2,73,883 or a mileage charge of Rs. 3,194 per mile. At this price Mysore stands sixth on the list of 8.

A greater portion (say 2 lakhs) of this amount will eventually be paid for by Revenue and the debit to Capital will not exceed Rs. 500 per mile or one-sixth of that now charged.

412

The suspense account as it stood on the 31st May 1883 is as under:—

Total Cost including Suspense.—(Table C, Column O).—The cost of the Bangalore-Mysore Railway is Rs. 50,031 per mile, and this rate will be reduced as suspense is absorbed by revenue. The rolling stock may have to be increased, open bridges covered in, goods sheds, stations and other accommodation may have to be added, yet the ultimate capital outlay of the present line in full working order should not

413

exceed Rs. 50,000 per mile, and at this price, considering the character of the country through which the line has been carried, Mysore cannot be accused of extravagance in its first attempt at railway construction.

One point however requires notice. The nature of the Mysore line with its sharp curves and steep grades will always entail heavy cost in working and in maintenance. The time may therefore come when with a public demanding a higher rate of speed and with a Government desiring a higher rate of profit, many miles will have to be realigned and reconstructed at an increased capital expenditure.

Retrospect.—On 1st April 1870 the Government of India in replying to Mr. Bowring's recommendations directed that surveys for railways in Mysore shall be commenced.

A Railway Report prepared by Captain Lindsay, R. E., with plans and sections of various routes on which Messrs. Henderson, Stace, Fox, Bernardo and Target had been engaged, was ready by November 1870 and the same was submitted to the Government of India in December 1870 by Major Sankey, R. E., at a time when Colonel Meade was Chief Commissioner in Mysore.

A revised estimate for the Bangalore-Mysore Railway was prepared and submitted to the Government of India on 22nd December 1871.

The proposal regarding the railway was held in abeyance in April 1872 till funds were available, and Captain Lindsay was transferred to Bengal.

The railway project is again reopened in August 1873 and the original report and drawings sent by Mysore to India are received back again in January 1875.

During 1876—77 there is an estimated deficit of 32 lakhs rupees and the Province is reduced by famine. Distress prevails, and on 8th August 1877 the Government of India sanctioned the commencement of the railway embankment for the broad gauge between the Madras Terminus and the Pettah as a famine relief work, Mr. Henderson being the Executive Engineer in charge.

On 20th September 1877 it was ascertained that irrigation and road works could not employ more than 22,000 men while labor for double that number was required. The Government of India then sanctioned the earthwork and collection of ballast on the lengths between Bangalore and Channapatna and between Mysore and Seringapatam. In the event of further relief work being required, the alignment of the railway between Channapatna and Seringapatam was again taken into consideration.

On 4th February 1878 the earthwork for 14 miles is far advanced and the line is located and laid out for over 40 miles when a question arose as to whether the railway should be on the metre gauge or on the broad gauge with rails of 45 lbs. to a yard. As it was vain to expect for many years to come that Mysore revenue could bear the cost, a loan was asked for from the Government of India to be devoted exclusively to the construction of this railway. Very shortly after this Mr. Gordon succeeded Mr. Saunders as Chief Commissioner.

On 29th March 1878 the metre gauge was decided on, a desire for strict economy affected the character of the work and the Mysore Railway became committed to grades as steep as 1 in 70 and curves as sharp as 660 feet radius.

On 15th June 1878 the Government of India approved of the direct line between Bangalore and Mysore being adopted and at the same time sanction was given for the construction of the bridges between Madras Terminus and the Pettah. On 3rd February 1879 provisional sanction was accorded to the estimates for work between Bangalore Pettah and Channapatna and Mr. Henderson was appointed Engineer-in-

Chief. The estimates for the remaining portion between Channapatna and Mysore were submitted in March and received sanction in June 1879.

Mr. Henderson was forced through failing health to leave Mysore and Major LeMessurier, R. E., succeeded him in November 1879.

The broad gauge portion between Madras Terminus and the Pettah was handed over to the Madras Railway on 1st October 1880, and the Mysore Railway was opened for passenger traffic on the following dates :—

Bangalore to Channapatna	..	..	1st February 1881.
Do to Mandya	..	..	20th March 1881.
Do to Mysore	..	..	25th February 1882.

and for goods traffic on 1st June 1882.

The Rendition of Mysore to HIS HIGHNESS THE MAHARAJA CHAMARAJENDRA WODAYAR was accomplished on 25th March 1881. The Secretary MR. RANGACHARLU, C. I. E., being appointed Dewan, SIR JAMES GORDON, K. C. S. I., Chief Commissioner, remaining as Resident in Mysore.

REVENUE.

The first public train with passengers ran through from Bangalore to Mysore on 25th February 1882, and trains with local goods commenced to run on 1st June 1882.

The Administration Report is of interest not merely because it deals with the Capital outlay involved in constructing 85¾ miles metre gauge railway to join Bangalore with the capital town of the Province, but also because it treats of the Revenue earned in working the said section during the first year of its infancy.

Notwithstanding the difficulty of organizing the different departments of Revenue servants more or less unacquainted with railway work, a want of rolling stock, and the fact that establishment charges on so short a line must be comparatively heavy, the net receipts amounted to Rs 1,03,945 or a return of 2·42 per cent on the Capital expenditure of Rs. 42,90,214.

The general results of working are given on Table E, and the following items are eliminated therefrom:—

Progressive Number.	Items.		Average on 8 Railways.	Mysore.
1	Miles open		85·75	85·75
8	Percentage of working expenses to gross receipts ...		56·14	64·11

30	Do one ton of goods		9·98	13·97

415

which roughly indicate that had the Mysore worked for a full year and up to an average standard of lines that have been working for sometime, it should have run quite double the number of train-miles. The passenger traffic approached ¾ths of the average on 8 other lines, but the goods traffic, owing to the paucity of stock and the time necessary for its development, was about ¼th of what may be expected. There is also evidence to show that when traffic increases, the fares both for passengers and goods will admit of reduction.

Passenger Traffic.—(Table F).—The number of passengers carried was 319,025 for Rs. 1,92,555. The percentages were—

	Number.	Rs.
1st Class	1·21	4·60
2nd Class	2·40	3·46
3rd Class	96·39	83·21
Miscellaneous	..	8·73

While as regards fares Mysore compares well with the average charges on other lines :—

Fares per mile.	Average of 8.	Mysore.
	Pies.	Pies.
1st Class	15·7	12
2nd Class	7·55	6

Through booking with all stations, Madras Railway, was introduced on 15th December 1882.

The distribution of Mysore coaching traffic in numbers and rupees, compared with the average of 8 other metre gauge lines is as under :—

Coaching.	Average of 8 for 85·75 miles.		Mysore 85·75 miles.	
	Number.	Rs.	Number.	Rs.
1st Class	1,283	8,514	3,853	8,850
2nd Class	4,788	8,926	7,644	6,670
3rd Intermediate	2,870	3,280	...	...
4th or Lowest Class	425,877	2,24,890	3,07,523	1,60,232
Miscellaneous	...	20,770	...	16,803
Totals.....	434,818	2,66,380	3,19,025	1,92,555

which shows that the number of passengers in each of the classes was influenced by the amount of the fare charged.

During the year under review there was no object in reducing the Mysore 3rd class fare, for stock was not available to carry increased numbers.

Goods Traffic.—(Table G.)—The amount carried was small, *viz.*, 22,107 tons for Rs. 92,818. The percentages were :—

	Tons.	Rs.
General merchandise	56·37	58·80
Military stores...	0·03	0·07
Railway material	28·89	36·62
Coal for revenue	0·12	0·09
Revenue stores...	14·47	3·39
Live stock	0·12	0·49
Miscellaneous	...	0·54

The rates for merchandise are given on Table H and do not seem to be higher than the average of those charged on other lines.

The quantities of principal articles carried and the receipts therefrom are given on Table J. The most important being—

	Tons.	Rs.
Railway material	6,387	33,994
Grains and pulse	4,466	19,420

Coffee	1,136	6,070

The distribution of Mysore goods traffic in tons and rupees compared with the average of other lines is as under :—

as nearly as possible ½th both in goods and money of the average earned on other lines.

The unit mileages of passengers and of goods is given on Table **K.**

Total Receipts and Expenses.—(Table **L**).—

The gross receipts were	Rs. 2,88,390	or Rs. 2·84	per train-mile.
The working expenses	Rs. 1,84,895	or Rs. 1·82	per train-mile.
The net profits	Rs. 1,03,495	or Rs. 1·02	per train-mile.

The working expenses were 64·11 per cent of the gross receipts, leaving 35·89 per cent as net profit.

The total traffic was in the following proportion :—

Coaching	66·77 per cent.
Goods	32·18 per cent.
Miscellaneous	1·05 per cent.

The result of the year's working as compared with the average on other lines is as under :—

Receipts.	Average of 8 other lines, 85·75 miles.		Mysore, 85·75 miles miles.	
	Rs.	Per Train-mile.	Rs.	Per Train-mile.
Coaching	2,66,380	2·79	1,92,555	3·66
Goods	3,82,022	2·86	92,818	1·90
Miscellaneous	21,990	0·09	3,017	0·03
Gross receipts	6,70,192	2·93	2,88,390	2·84
Working expenses	3,76,265	1·65	1,84,895	1·82
	2,93,927	1·28	1,03,495	1·02
Number of Train-miles.....	2,28,651		1,01,479	

It must be remembered that in this case Mysore at its start is being compared with other lines that have been at work for some years. The number of train-miles was not one-half of the average number on which the comparison is made, and in goods traffic which yields the highest revenue Mysore was only at work for 7 months out of the 12. Apparently time only is wanting to secure a better result.

Working Expenses.—(Table **M**).—

The expenditure under different heads is in the following proportion :—

Heads.	Of Total Expenditure per cent.	Of Gross Receipts per cent.
Maintenance	18·85	12·09
Locomotive	40·02	25·65
Carriage and Wagon...	5·14	3·29
Traffic	16·29	10·45
General...	18·27	11·71
Special and Miscellaneous	1·43	0·92
	100·00	64·11

The detail of expenditure—Mysore line—is now entered in comparison with the average on 8 other lines, *viz*:—

Expenditure.	Average of 8 lines, 85·75 miles.		Mysore, 85·75 miles.	
	Amount, Rs.	Per Train-mile.	Amount, Rs.	Per Train mile.
Maintenance	88,932	0·39	34,856	0·34
Locomotive	1,40,362	0·61	73,986	0·73
Carriage and Wagon	26,890	0·12	9,501	0·09
Traffic	60,265	0·26	30,131	0·30
General	49,044	0·21	33,781	0·33
Steam Boat	5,747	0·03	...	...
Special and Miscellaneous	5,025	0·03	2,640	0·03
Total...	3,76,265	1·65	1,84,895	1·82
Number of Train-miles...	228,651		101,479	

That is to say Mysore has done rather less than half the work shown for the average of 8 other lines at something less than half the expenditure, the increase in cost per train-mile being increased on the less work from Rs. 1·65 to 1·82.

A few remarks are now offered with regard to the working expenditure under the different heads.

Maintenance—Is less than the average. This is due to the line being new and no ballast was charged to Revenue during the first half of the year.

Locomotive.—The total expenditure is about $\frac{1}{6}$th higher than the average per train-mile.

The detail of the expenditure is as under :—

	Rs.	Per Cent to Total.
General superintendence	.. 8,114	10·97
Running expenses..	.. 21,424	28·96
Fuel .	.. 29,305	39·61
Water ..	.. 4,414	5·96
Oil ..	.. 3,297	4·45
Maintenance and renewal	.. 5,014	6·78
Unclassified ..	.. 2,418	3·27
	Rs. 73,986	100

General superintendence may be high, but it includes salaries of Superintendents and Assistants who could look after a greater length of line for the same money.

Running expenses chiefly consist of wages and allowances and these are not high in Mysore.

419

Fuel—Consists of coal purchased from Madras at Rs. 33 per ton and wood purchased from the State at Rs. 6 per ton of 68 cubic feet during the first half of 1882. It was then found that owing to an alteration in the style of stacking the fuel that the Railway had been paying the State at a rate of Rs. 6—14—5 per ton, and from 1st July 1882 it was arranged that the Railway should pay Rs. 6 per ton for fuel contained in 80 cubic feet. The price of wood fuel on Madras Railway is Rs. 5 per ton and on the S. I. R. Rs. 4 per ton.

The following table is extracted from page 15 of the Director General of Railways Administration Report:—

Statement showing Source and Description of Fuel used and the Consumption and Cost per Train-mile.

Railway.	Source and Description of Fuel used.	Per Train-mile.	
		Consumption in lbs.	Cost in Annas.
1. South Indian	English Coal	27·01	3·10
2. Rajputana-Malwa	English and Bengal Coal ...	31·96	4·98
3. Northern Bengal	Bengal Coal	31·84	2·69
4. Tirhoot	Do	33·67	2·74
5. Cawnpore-Furruckabad ...	Do	31·25	3·39
6. Nagapúr-Chattisgarh ...	Danira Coal and Wood	67·00	4·00
7. Rangoon and Irrawady ...	English Coal	20·36	2·41
8. Bhavnagar-Gondal	Do	19·36	2·55
9. Mysore	Wood	89·82	4·62

From the above it will be seen that on—

Railways—	Fuel.	Average per Train-mile.	
		Consumption in lbs.	Cost Annas.
Nos. 1, 7, 8	English Coal	22·24	2·68
Nos. 3, 4, 5	Bengal Coal	32·25	2·94
No. 9	Wood	89·82	4·62

1 lb. of English coal = 1·45 lbs. of Bengal coal = 4 lbs. of Mysore wood, while the prices are respectively as 100 to 109 to 175.

The price of Mysore wood admitted of reduction and a rate is now in force of Rs. 5 per ton. The price of coal from Madras is high, but as little of it is used as is psosible.

As regards the comparative value of wood and coal it has generally been accepted that 3 tons of wood was equivalent to 1 ton of English coal, but from the comparison made above whether from incorrect measurement or not, 4 tons of Mysore wood are equivalent to 1 ton of English coal. On the Madras Railway during 5 years ending 1877 the proportion was 3·35 of wood to 1 of coal, while in 1877 it was 3·98 tons of wood to 1 of coal.

But if reference is made to the Director General of Railways' Table on page 15 it will be seen that the consumption of fuel on lines burning wood as fuel is as under:—

	lbs.
Madras	83·10
Indus Valley and Kandahar	93·08
Nizams	79·28
	3) 255·46

Average 85·15 lbs. per train-mile,

while Mysore by the same statement consumes 89·82 lbs.

As regards consumption of fuel the following extract from a report by the Locomotive Superintendent is inserted :—

" Owing to the steep grades on the Bangalore-Mysore section consumption of " fuel will always be comparatively high.

" Of the total length of 86 miles 70 are on grades mostly 1 in 70, and to train " full loads up those grades, regulators have to be nearly full opened and reversing " lever thrown over 2 or 3 notches; which means cutting off steam at $\frac{1}{3}$th stroke, " instead of $\frac{1}{2}$ or $\frac{2}{3}$th intensifying the blast and discharging the heat into the air with " such force that its useful effect in generating steam is much impaired.

" It may be said that the extra power required to haul trains up grades is res- " tored in descending the same. This is not so, for immediately a train enters on a " descending grade of 1 in 70 brakes have to be applied to keep it under control, and " all power absorbed by the brakes is of course lost.

" If the grades were 1 in 100 then there would be no loss of power, as the " speed due to gravity would be about 18 miles an hour, or well within that autho- " rized".

Carriage and Wagon.—The expenditure is less than the average owing to the stock being new.

Traffic.—The excess on the average is due to the cost of general superintendence which is sufficient to look after a greater length of line.

General charges—Are high. They include salaries for management, audit, accounts' stores, &c., while Rs. 10,545 or nearly $\frac{1}{3}$rd of the whole expenditure of this abstract was paid to the Government Telegraph Department for rent, maintenance and inspection.

Special and Miscellaneous—Are not in excess of the average, but half of the expenditure under this abstract consisted of Rs. 725 for compensation, and Rs. 1,863 for bonus to Railway employés on the opening to Mysore and at the Dasara festival.

On the whole this short line from the commencement of its work gives a favorable result when compared with other lines that have been at work for some length of time

STATEMENT OF OBJECTS AND REASONS.

1. The existing law on the subject of the administration of Local Funds in Mysore is contained in the Rules sanctioned by the Government of India and published under the late Chief Commissioner's Notification No. 110, dated the 4th July 1874. The rules provide for the formation of a District Committee in each District with the Deputy Commissioner as President and the Assistant Commissioners, the Executive Engineer and all Amildars in the District as *ex-officio* members; while a holder of an alienated village elected by holders of alienated villages and six land-holders appointed by the Government are to represent the non-official interests in the District. It is the duty of the Committee to provide for works calculated to promote the health, comfort and convenience of the inhabitants of the District. The funds at its disposal now consist of (1) a one anna cess on every rupee of all items of land revenue, of forest produce, of abkari and sayer collections, of the proceeds of saltpans, tolls and other contracts, (2) local ferry collections, (3) receipts under the Cattle-trespass Act, and (4) any sums of money which the Government may, from time to time, contribute.

2. In working these Committees it has been found difficult to awaken in the minds of the non-official members most interested in the administration of local funds, a full sense of their powers and duties, and the whole administration of the funds has practically fallen into the hands of Government officers. This is chiefly owing to the very large area over which the authority of the Committee extends, to the overwhelming preponderance of the official members and to the undefined and almost unlimited subordination of the Committees to Government officials in the administration of the funds. No provision is made in the rules to give the Committees an independent constitution, or to empower them to acquire or sell property, or to do any other acts necessary for the carrying out of the purposes of the Rules.

3. It is therefore proposed in this Draft Regulation to remedy these shortcomings by substituting for the District Committees two classes of Boards, one for each Taluk to meet purely local wants, and the other for each District for the discharge of functions in matters concerning larger areas. These Boards will have a corporate constitution, will be invested with definite duties and powers and will have a large degree of independence in the administration of the funds. The measure involves no new taxation, but restricts the levy of the one anna cess to a few definite items of revenue.

4. The principal provisions of the Draft Regulation are as follows :—

Chapter I deals with the necessary preliminary matter.

Chapter II provides for the constitution of both Taluk and District Local Boards, for the appointment and election of their members and Presidents and for the conduct of business. It is provided that the number of *ex-officio* members shall not exceed one-third of the Board. At first it will be necessary for Government to appoint all non-official members of Taluk Boards, but after a few years of practical working it may be found advisable to resort to the elective system, for which accordingly provision is made in the Draft. The non-official members of District Boards will, however, be all deligates from the Taluk Boards elected by such Boards. Sections 9—13 deal with the term of office of the members and their resignation or removal and provide for filling up casual vacancies. Section 14 provides for the incorporation of the Boards and gives them power to enter into contracts and to do all other things necessary for the exercise of their functions. Section 16 provides for the continuance of the rights and liabilities of the present District Committees and saves existing rules and orders regarding administrative details so far as they are consistent with the Regulation. The Deputy Commissioner and the Amildar must, for some years to come, be the Presidents of the District and Taluk Boards respectively. The employment of the officers and servants will rest with the Boards entirely, the Government simply prescribing a scale of establishment. Section 38 provides for the

460

Chapter III relates to taxation and funds. Definite provision is made as to the manner which the one anna cess is to be assessed on alienated and unalienated lands. The only er items on which this cess is leviable are declared to be the Halat on areca-nut l the Excise revenue, the cess now levied on numerous other items being abolished. ' ntage is taken of the present opportunity to consolidate the law relating to the levy tolls on public ferries, roads and bridges and the proceeds of tolls on roads and idges are transferred to the " Local Funds." Provision is also made for the division of nds between Taluk and District Boards so as to vest definite powers and duties in ch Board.

Chapter IV defines the duties of Local Boards. Subject to Government control be exercised in very exceptional cases these Boards have unlimited powers in matters of ernal administration. All matters of local interest, such as elementary education, minor ads and hospitals, the planting of topes and other works of purely local importance, will nder the immediate control of the Taluk Boards; while on the other hand the manage- ent of matters, in which larger interests are concerned, are vested in the District Boards.

As at present a definite proportion of Local Funds is set apart for elementary hools and it is proposed to vest the management of such schools in Taluk Boards aided, here necessary, by Village Committees.

Chapter V provides for Government control. Power is given to the District Officers, bject to the orders of Government, to interfere in exceptional cases in which the action of Board may be likely to lead to a breach of the peace or other serious public injury. rovision is also made for the supersession of a Board for persistent neglect of its uty, as well as for the submission of annual budget estimates, accounts and reports and r a proper audit of all accounts.

Chapter VI contains provisions regarding the execution of works by the Govern- ent Public Works Department at the instance of Local Boards such Boards must e unable to secure an executive agency so experienced and efficient as what is al- eady at the disposal of Government. While therefore the actual execution of works is ested in the Public Works Department, the sole power of initiating works, a large share, f the supervision of their execution and a voice in the disposal of contracts are given to Local Boards. Such a system of joint control and responsibility is expected to lead to orks of real local utility receiving the attention they deserve and to economy in their exe- ution It is a question whether works, the cost of which does not exceed a certain amount, may not be left to be executed by any agency at the discretion of the Local Boards. A provision of this kind can hardly be necessary so long as Local Boards have a voice in the disposal of contracts for the execution of all works.

Chapter VII deals with the Irrigation Fund. This fund was originally constituted for all settled Taluks by rules contained in the Survey Guarantees from time to time published. It is formed out of the collections of the one anna cess in everyrupee of wet as- sessment as fixed by the Survey and Settlement. It is a separate levy in all the Taluks settled before 1875, since which year it is merged in the survey valuation of all wet lands, Government giving, out of its revenue, a lump sum grant to the fund. The present rules provide for a fund for each District, but experience has shown that the amount to the credit of the fund in each District is always either more or less than what is required for the legitimate wants of that District. It is therefore proposed to form a Provincial Irrigation Fund out of the receipts from existing sources and to leave it to Government to fix, from time to time, the amount required for expenditure in each District. As the existing District Committees are entrusted with the administration of the fund in question, it is proposed to continue the same arrangement by empowering Government to

461.

entrust to the Local Board of a District the portion of the Provincial Irrigation Fund allotted for expenditure in that District, to be administered by such Board under the rules relating to "Local Funds." If this arrangement is found to be inconvenient, either because the interests involved relate to an important item of the Government Land Revenue, or because the Local Boards have quite sufficient work in connection with the Local Funds the administration of which more legitimately vests in them, it is always competent to the Government to relieve the Local Boards of all duties connected with Irrigation.

Chapter VIII contains certain miscellaneous provisions, such as the acquisition of land by Government for Local Boards, recovery of revenue, mode of framing rules and criminal prosecutions.

5. All Heads of Departments will be invited to give their opinion on the proposed measure and the Draft Regulation will be published in the official Gazette for public information.

6. Reference is made in the Draft Regulation to the "Mysore Land Revenue Regulation," a draft of which has been prepared and will shortly be published.

STATEMENT OF OBJECTS AND REASONS.

1. The existing law on the subject of the administration of Local Funds in Mysore is contained in the Rules sanctioned by the Government of India and published under the late Chief Commissioner's Notification No. 110, dated the 4th July 1874. The rules provide for the formation of a District Committee in each District with the Deputy Commissioner as President and the Assistant Commissioners, the Executive Engineer and all Amildars in the District as *ex-officio* members; while a holder of an alienated village elected by holders of alienated villages and six land-holders appointed by the Government are to represent the non-official interests in the District. It is the duty of the Committee to provide for works calculated to promote the health, comfort and convenience of the inhabitants of the District. The funds at its disposal now consist of (1) a one anna cess on every rupee of all items of land revenue, of forest produce, of abkari and sayer collections, of the proceeds of saltpans, tolls and other contracts, (2) local ferry collections, (3) receipts under the Cattle-trespass Act, and (4) any sums of money which the Government may, from time to time, contribute.

2. In working these Committees it has been found difficult to awaken in the minds of the non-official members most interested in the administration of local funds, a full sense of their powers and duties, and the whole administration of the funds has practically fallen into the hands of Government officers. This is chiefly owing to the very large area over which the authority of the Committee extends, to the overwhelming preponderance of the official members and to the undefined and almost unlimited subordination of the Committees to Government officials in the administration of the funds. No provision is made in the rules to give the Committees an independent constitution, or to empower them to acquire or sell property, or to do any other acts necessary for the carrying out of the purposes of the Rules.

3. It is therefore proposed in this Draft Regulation to remedy these shortcomings by substituting for the District Committees two classes of Boards, one for each Taluk to meet purely local wants, and the other for each District for the discharge of functions in matters concerning larger areas. These Boards will have a corporate constitution, will be invested with definite duties and powers and will have a large degree of independence in the administration of the funds. The measure involves no new taxation, but restricts the levy of the one anna cess to a few definite items of revenue.

4. The principal provisions of the Draft Regulation are as follows:—

Chapter I deals with the necessary preliminary matter.

Chapter II provides for the constitution of both Taluk and District Local Boards, for the appointment and election of their members and Presidents and for the conduct of business. It is provided that the number of *ex-officio* members shall not exceed one-third of the Board. At first it will be necessary for Government to appoint all non-official members of Taluk Boards, but after a few years of practical working it may be found advisable to resort to the elective system, for which accordingly provision is made in the Draft. The non-official members of District Boards will, however, be all delegates from the Taluk Boards elected by such Boards. Sections 9—13 deal with the term of office of the members and their resignation or removal and provide for filling up casual vacancies. Section 14 provides for the incorporation of the Boards and gives them power to enter into contracts and to do all other things necessary for the exercise of their functions. Section 16 provides for the continuance of the rights and liabilities of the present District Committees and saves existing rules and orders regarding administrative details so far as they are consistent with the Regulation. The Deputy Commissioner and the Amildar must, for some years to come, be the Presidents of the District and Taluk Boards respectively. The employment of the officers and servants will rest with the Boards entirely, the Government simply prescribing a scale of establishment. Section 38 provides for the manner in which contracts should be executed by the Boards.

Chapter III relates to taxation and funds. Definite provision is made as to the manner in which the one anna cess is to be assessed on alienated and unalienated lands. The only other items on which this cess is leviable are declared to be the Halat on areca-nut and the Excise revenue, the cess now levied on numerous other items being abolished. Advantage is taken of the present opportunity to consolidate the law relating to the levy of tolls on public ferries, roads and bridges and the proceeds of tolls on roads and bridges are transferred to the "Local Funds." Provision is also made for the division of funds between Taluk and District Boards so as to vest definite powers and duties in each Board.

Chapter IV defines the duties of Local Boards. Subject to Government control to be exercised in very exceptional cases these Boards have unlimited powers in matters of internal administration. All matters of local interest, such as elementary education, minor roads and hospitals, the planting of topes and other works of purely local importance, will be under the immediate control of the Taluk Boards; while on the other hand the management of matters, in which larger interests are concerned, are vested in the District Boards.

As at present a definite proportion of Local Funds is set apart for elementary schools and it is proposed to vest the management of such schools in Taluk Boards aided, where necessary, by Village Committees.

Chapter V provides for Government control. Power is given to the District Officers, subject to the orders of Government, to interfere in exceptional cases in which the action of a Board may be likely to lead to a breach of the peace or other serious public injury. Provision is also made for the supersession of a Board for persistent neglect of its duty, as well as for the submission of annual budget estimates, accounts and reports and for a proper audit of all accounts.

Chapter VI contains provisions regarding the execution of works by the Government Public Works Department at the instance of Local Boards such Boards must be unable to secure an executive agency so experienced and efficient as what is already at the disposal of Government. While therefore the actual execution of works is vested in the Public Works Department, the sole power of initiating works, a large share of the supervision of their execution and a voice in the disposal of contracts are given to Local Boards. Such a system of joint control and responsibility is expected to lead to works of real local utility receiving the attention they deserve and to economy in their execution It is a question whether works, the cost of which does not exceed a certain amount, may not be left to be executed by any agency at the discretion of the Local Boards. A provision of this kind can hardly be necessary so long as Local Boards have a voice in the disposal of contracts for the execution of all works.

Chapter VII deals with the Irrigation Fund. This fund was originally constituted for all settled Taluks by rules contained in the Survey Guarantees from time to time published. It is formed out of the collections of the one anna cess in everyrupee of wet assessment as fixed by the Survey and Settlement. It is a separate levy in all the Taluks settled before 1875, since which year it is merged in the survey valuation of all wet lands, Government giving, out of its revenue, a lump sum grant to the fund. The present rules provide for a fund for each District, but experience has shown that the amount to the credit of the fund in each District is always either more or less than what is required for the legitimate wants of that District. It is therefore proposed to form a Provincial Irrigation Fund out of the receipts from existing sources and to leave it to Government to fix, from time to time, the amount required for expenditure in each District. As the existing District Committees are entrusted with the administration of the fund in question, it is proposed to continue the same arrangement by empowering Government to

entrust to the Local Board of a District the portion of the Provincial Irrigation Fund allotted for expenditure in that District, to be administered by such Board under the rules relating to "Local Funds." If this arrangement is found to be inconvenient, either because the interests involved relate to an important item of the Government Land Revenue, or because the Local Boards have quite sufficient work in connection with the Local Funds the administration of which more legitimately vests in them, it is always competent to the Government to relieve the Local Boards of all duties connected with Irrigation.

Chapter VIII contains certain miscellaneous provisions, such as the acquisition of land by Government for Local Boards, recovery of revenue, mode of framing rules and criminal prosecutions.

5. All Heads of Departments will be invited to give their opinion on the proposed measure and the Draft Regulation will be published in the official Gazette for public information.

6. Reference is made in the Draft Regulation to the "Mysore Land Revenue Regulation," a draft of which has been prepared and will shortly be published.

502

or appertaining thereto, the property of Government; and it shall be lawful for the Deputy Commissioner to dispose of them in such manner as may be authorized by Government, subject always to the rights of way, and all other rights of the public or of individuals legally subsisting.

38. When it is proved on a formal enquiry before the Deputy Commissioner that any public road, street or thoroughfare, or any place of public resort or use, or the bed of any river, stream, nalla, tank or canal, the property of Government, has been encroached upon by any person, the Deputy Commissioner may take possession of the part encroached upon, unless such part is shown to have been held for a period of not less than 12 years. It shall be lawful for the Deputy Commissioner to clear such land by the removal of any buildings or other obstructions, in the event of the person in occupation thereof, or other person interested, after written notice of not less than one month shall have been served upon him, failing to do so himself.

When the person in occupation is a tenant of, or co-owner with, another person, and in every case in which another person is, to the knowledge of the person in occupation, interested in the property to which such notice relates, it shall be the duty of the person in occupation to give such notice or a copy thereof or intimation thereof to such other person; and, for any failure in such duty causing injury, he shall be responsible in damages.

39. When land is taken possession of, under the last preceding Section, in any town to which Bombay Act I of 1865 or Act IV of 1868 has been applied, reasonable compensation shall be given to the owner, or other person interested, in respect of buildings proved to have been erected previous to the application of such Act.

Provided that it shall in no case be necessary to give compensation in respect of the removal of cess-pools, or of door-steps, benches, or other projections of whatever kind or material, and provided also that if the compensation offered by the Deputy Commissioner be not accepted, the amount of compensation due shall be fixed under the provisions of Part III of Act X of 1870.

40. Unless it is otherwise expressly provided by the terms of any grant made, or of any other instrument of transfer executed, by the Government for the time being, the right to all precious metals, precious stones, coals and other minerals to be extracted by any process of mining from any lands whatsoever, shall vest absolutely in the Government, and the Government shall have all the powers necessary for the proper enjoyment or disposal of such rights.

Provided that, in the exercise of the rights herein referred to, either by the Government or by any person acquiring such rights from the Government, no lands in the holding or enjoyment of others shall, without their permission, be entered upon. The fact that any land not at the disposal of Government is required for mining purposes either by Government or by persons acquiring mining rights

42. The right of grazing on free pasturage lands shall extend only to the cattle of the village or villages to which such lands belong or have been assigned, and shall be regulated by rules to be, from time to time, either generally or in any particular instance, prescribed by the Deputy Commissioner, subject to such general rules, if any, as may be prescribed by the Government. The Deputy Commissioner's decision as to the said right of grazing shall be conclusive.

The right to the nine descriptions of reserved timber growing on lands set apart for forest reserves under Section 32 of Bombay Act I of 1865 or Section 41 of this Regulation, vests in the Government. The right to all other descriptions of timber growing on such lands vests in the village or villages to which such lands belong or are assigned; and the exercise of this right by the inhabitants of such village or villages shall be regulated by such rules as may, from time to time, be prescribed by the Government in this behalf.

The nine descriptions of reserved timber referred to in this Section are :—

(*a*) the nine descriptions of reserved timber specified in Section 44 shall vest in the Government, which shall remove or cause to be removed all such reserved timber within the period of two years from the date of settlement or from the date of the survey number being taken up, as the case may be. Should the Government not remove, or cause to be removed, such timber within the said period of two years, the same, except sandalwood, shall belong to the occupant ; and

(*b*) all trees, brushwood or jungle, except the nine descriptions of reserved timber specified in Section 44, shall vest absolutely in the occupant.

46. In villages of which the Survey settlement has not been completed either under Bombay Act I of 1865, or under Chapter VIII of this Regulation, all trees of the nine descriptions of reserved timber specified in Section 44 vest in the Government ; and all other trees, in the occupant, if any, of the land upon which they may be standing.

Section 41, B. R. C.

47. The right to all trees, brushwood, jungle or other natural product, wherever growing, except in so far as the same may be the property of individuals or of aggregates of individuals capable of holding property, vests in the Government : and such trees, brushwood, jungle or other natural product shall be preserved or disposed of in such manner as Government may, from time to time, direct.

Section 42, B. R. C.

48. All road-side trees which have been planted and reared by, or under the orders of, or at the expense of, Government, or at the expense of Local Funds, vest in Government. But in the event of such trees dying, or being blown down, or being cut down by order of the Deputy Commissioner, the timber shall become the property of the holder of the land in which they were growing : and the usufruct, including the loppings of such trees, shall also vest in the said holder. Provided that the trees shall not be lopped except under the orders of the Deputy Commissioner.

If the holder of any land in which such trees are growing shall so desire and shall make an application to the Deputy Commissioner for the purpose at any time within two years from the date on

which this Regulation shall come into operation, the Deputy Commissioner shall deduct the strip of land covered by the said trees from his holding and remit thenceforward the proportionate amount of land revenue due upon the strip so deducted. Any strip of land so deducted shall, with the trees upon it, vest thereafter in Government.

Section 43, B. R. C.

Recovery of value of trees, &c., unauthorizedly appropriated.

49. Any person, who shall unauthorizedly fell and appropriate any tree or any portion thereof or remove any other natural product which is the property of Government, shall be liable to Government for the value thereof, which shall be recoverable from him as an arrear of land revenue, in addition to any penalty to which he may be liable under the provisions of this Regulation for the occupation of land or otherwise, and notwithstanding any criminal proceedings which may be instituted against him in respect of his said appropriation of Government property.

The decision of the Deputy Commissioner as to the value of any such tree or portion thereof, or other natural product, shall be conclusive.

Land Revenue.

Section 45, B. R. C.

All land liable to pay revenue unless specially exempted.

50. All land, whether applied to agricultural or other purposes, and wherever situate, is liable to the payment of land revenue to Government according to the rules hereinafter enacted, except such as may be wholly exempted under the provisions of any special contract with the Government or any law for the time being in force. But nothing in this Regulation shall be deemed to affect the power of the Government to direct by law the levy of revenue on all lands, under whatever title they may be held, whenever and so long as the exigencies of the State may render such levy necessary.

Section 46, B. R. C.

51. All alluvial lands, newly formed islands or abandoned river-beds, which vest, under any law for the time being in force, in any holder of alienated land, shall be subject, in respect of liability to the payment of land revenue, to the same privileges, conditions or restrictions as are applicable to the original holding, in virtue of which such lands, islands or river-beds so vest in the said holder: but no revenue shall be leviable in respect of any such lands, islands or river-beds, until or unless the area of the same exceeds half an acre and also exceeds one-tenth of the area of the said original holding.

Section 47, B. R. C.

Assessment of land revenue in cases of diluvion.

52. Every holder of land paying revenue in respect thereof shall be entitled, subject to such rules as may be, from time to time, made in this behalf by the Government, to a decrease of assessment if any portion thereof, not

being less than half an acre in extent, nor less than one-tenth of the holding, is lost by diluvion.

Section 48, B R. C.

53. The land revenue leviable under the provisions of this Regulation shall be chargeable,

(a) upon land appropriated for purposes of agriculture ;

(b) upon land from which any other profit or advantage than that ordinarily acquired by agriculture is derived ;

(c) upon land appropriated for building sites.

Assessment subject to variation if purpose for which land is held is changed.

And the assessment fixed under the provisions of this Regulation upon any land appropriated for any one of the above purposes shall be liable to be altered and fixed at a different rate, when such land is appropriated for any other purpose, notwithstanding that the term, if any, for which such assessment was fixed may not have expired.

Land held rent-free for one purpose liable to assessment if used for another purpose.

When any land which is situated in an unalienated village, or which, being situated in an alienated village, is excluded from the assets thereof, has been allowed by Government to be held free of assessment or on a reduced assessment on condition of its being appropriated to one purpose, it shall become liable to be charged with full assessment, if at any time it ceases to be appropriated for such purpose.

Appropriation of land to certain purposes may be prohibited.

It shall also be lawful for the Deputy Commissioner or for a Survey officer, subject to rules or orders made in this behalf under Section 241, to prohibit the appropriation of any unalienated land liable to the payment of land revenue for certain purposes, and to summarily evict any holder who may appropriate, or attempt to appropriate, the same to such prohibited purposes.

Section 49, B. R. C.

54. (1).—When it has been customary to levy any special or extra cess, fine, or tax, however designated, from any holder of land, which, though nominally wholly or partially exempt from the payment of land revenue, has, by the exaction of such cess, fine, or tax, been indirectly taxed to the State ;

And of land liable to occasional assessment.

Or, when any land ordinarily, or under certain circumstances, wholly or partially exempt from assessment, is subject occasionally, or under particular circumstances, to the payment of assessment, or of any cess, or tax, however designated ;

the said assessment, cess, fine, or tax may be commuted

into an annual assessment on the land to be paid under all circumstances; but such commuted assessment shall not exceed such amount as the Government shall deem to be a fair equivalent of the assessment, cess, fine or tax for which it is substituted, and shall not be in excess of the assessment to which the land would be ordinarily subject, if no right to exemption existed in respect thereof.

Section 50, B. R. C.

Superior holder may recover commuted assessment from inferior holder.

(2). Whenever any such cess, fine or tax hitherto payable by an inferior holder shall be made leviable from the superior holder, it shall be lawful for such superior holder to recover from such inferior holder the amount of the commuted assessment fixed in lieu of such cess, fine or tax.

Section 51, B. R. C.

Excess of assessment may be levied on land inadequately assessed held with it.

(3). When it has been customary to levy a larger revenue upon any portion of land than such portion would ordinarily be liable to, in consideration of other land being held with it, which is wholly or partially exempt from payment of revenue, the excess of revenue payable on the said portion of land may be charged upon the land hitherto held wholly or partially exempt.

Section 52, B. R. C.

Assessment by whom to be fixed.

55. On all lands not wholly exempt from payment of land revenue, and not within the local operation of an order made under Section 112, the assessment of the amount to be paid as land revenue shall be fixed at the discretion of the Deputy Commissioner, subject to rules or orders made in this behalf under Section 241, and the amounts due according to such assessment shall be levied on all such lands:

Provided that in the case of lands partially exempt from land revenue, or the liability of which to payment of land revenue is subject to special conditions or restrictions, respect shall be had, in the fixing of the assessment and the levy of the revenue, to all rights legally subsisting, according to the nature of the said rights.

Section 53, B. R C.

Register of alienated lands.

56. A register shall be kept by the Deputy Commissioner in such form as may, from time to time, be prescribed by the Government, of all lands the alienation of which has been established or recognized under the provisions of any law for the time being in force; and when it shall be shown to the satisfaction of the Deputy Commissioner that a sannad, granted in relation to any such alienated lands, has been permanently lost or destroyed, he may, subject to the rules and the payment of the fees prescribed by the Government under Section 240, grant to any person whom he may deem entitled to the same a certified extract from the said register, which shall be endorsed by the Deputy Commissioner to the effect that it has been issued in lieu of the sannad said to have been lost or destroyed, and shall be deemed to be as valid a proof of title as the said sannad.

58. The Government may authorize the Deputy Commissioner or the officer in charge of a survey or such other officer as it appoints, to fix such rates, as it may from time to time deem fit to sanction, for the use, by land-holders and other persons, of water, the right to which vests in Government, or which has been made available in consequence of the construction, improvement or repair of any irrigational or other work by, or at the instance of, Government. Such rates shall be liable to revision at such periods as Government shall from time to time determine, and shall be recoverable as land revenue.

Section 56, B. R. C.

59. Arrears of land revenue due on account of land by any land-holder shall be a paramount charge on the holding and every part thereof, failure in payment of which shall make the occupancy or alienated holding together with all rights of the occupant or holder over all trees, crops, buildings and things attached to the land, or permanently fastened to anything attached to the land, liable to forfeiture, whereupon the Deputy Commissioner may levy all sums in arrear by sale of the occupanay or alienated holding, freed from all tenures, incumbrances and rights created by the occupant or holder or any of his predecessors in title or in any wise subsisting as against such occupant or holder, or may otherwise dispose of such occupancy or alienated holding under rules or orders made in this behalf under Section 241.

Section 60, B. R. C.

Written permission of Amildar required previous to taking up unoccupied land.

63. Any person desirous of taking up unoccupied land which has not been alienated must, previously to entering upon occupation, obtain the permission in writing of the Amildar or Deputy Amildar.

Section 61, B. R. C.

Penalties for unauthorized occupation of land.

64. Any person who shall unauthorizedly occupy any land set apart for any special purpose, or any unoccupied land which has not been alienated, shall,

if the land, which he unauthorizedly occupies, forms part of an assessed survey number, pay the assessment of the entire number for the whole period of his occupation, and,

if the land so occupied by him has not been assessed, such amount of assessment as would be leviable for the said period in the same village on the same extent of similar land appropriated to the same purpose;

and shall also be liable, at the discretion of the Deputy Commissioner, to a fine not exceeding five rupees, or a sum equal to ten

times the amount of assessment payable by him for one year, if such sum be in excess of five rupees, if he have taken up the land for purposes of cultivation, and not exceeding such limits as may be fixed in rules or orders made in this behalf under Section 241, if he have appropriated it to any non-agricultural purpose.

The Deputy Commissioner's decision as to the amount of assessment payable for the land unauthorizedly occupied shall be conclusive, and in determining the amount of assessment payable for the land unauthorizedly occupied, occupation for an incomplete portion of a year shall be counted as for a whole year.

The person unauthorizedly occupying any such land may be summarily evicted by the Deputy Commissioner, and any crop he may have raised on the land shall be liable to forfeiture, and any building or other construction he may have erected thereon shall also, if not removed by him after such written notice as the Deputy Commissioner may deem reasonable, be liable to forfeiture.

Price to include price of trees.

The price of an occupancy shall, unless otherwise directed by the terms of the sale, include the price of the Government right to all trees not reserved under the provisions of Section 45, and shall be recoverable as an arrear of land revenue.

Section 63, B. R. C.

Occupancy of alluvial land which vests in Government.

66. When it appears to the Deputy Commissioner that the occupancy of any alluvial land which vests, under any law for the time being in force, in Government, may, with due regard to the interests of the public revenue, be disposed of in perpetuity, he shall offer the prior right of occupancy thereof to the occupant, if any, of the bank or shore on which such alluvial land has formed.

The price of an occupancy so offered shall not exceed three times the annual assessment of the land of which the occupancy is offered.

If the said occupant shall refuse such occupancy, the Deputy Commissioner may dispose of the same under the last preceding Section without any restrictions as to the price thereof.

Section 64, B. R. C.

Temporary right to alluvial land of small extent.

67. When alluvial land forms on any bank or shore, the occupant, if any, of such bank or shore, shall be entitled to the temporary use and occupation thereof, unless or until the area of the same exceeds half an acre, and also exceeds one tenth of the area of his holding. When the area of the alluvial land exceeds the said extent, it shall be at the disposal of the Deputy Commissioner, subject to the provisions of the last preceding Section.

The word "Holding" in this Section and in Section 52 shall be deemed to mean a survey number, or any division of land on which a distinct or aggregate assessment has been fixed.

Uses to which occupant of land for purposes of agriculture may put his land.

68. Procedure, if the occupant wishes to apply his land to any other purpose.

But if any occupant wishes to appropriate his holding or any part thereof to any other purpose, the Deputy Commissioner's permission shall, in the first place, be applied for by the registered occupant. The Deputy Commissioner, on receipt of such application, shall at once furnish the applicant with a written acknowledgment of its receipt, and after inquiry, either grant or refuse the same; but if the applicant receive no answer within three months from the date of the said acknowledgment, the Deputy Commissioner's permission may be deemed to have been granted. Unless the Deputy Commissioner shall, in particular instances, otherwise direct, no such application shall be recognized except it be made by the registered occupant.

Fine to be levied for such appropriation in addition to special assessment.

When any such land is thus appropriated to any purpose unconnected with agriculture, it shall be lawful for the Deputy Commissioner, subject to the general orders of Government, to require the payment of a fine in addition to any new assessment which may be leviable under the provisions of Section 53.

Section 66, B. R. C.

Penalty for so appropriating land without permission.

69. If any such land be so appropriated without the permission of the Deputy Commissioner being first obtained, or before the expiry of three months from the date of the said acknowledgment, the occupant and any tenant, or other person hold-

ing under or through him, shall be liable to be summarily evicted by the Deputy Commissioner from the land so appropriated, or from the entire field or survey number of which it may form a part, and the registered occupant shall also be liable to pay, in addition to the new assessment which may be leviable under the provisions of Section 53, for the period during which the said land has been so appropriated, such fine as the Deputy Commissioner may, subject to the general orders of the Government, direct.

220. No appeal shall be brought after the expiration of thirty days if the decision or order complained of have been passed by an officer inferior in rank to a Deputy Commissioner or a Superintendent of Survey in their respective Departments, nor after the expiration of sixty days in any other case.

In computing the above periods, the time required to prepare a copy of the decision or order appealed against shall be excluded.

CHAPTER XIV.

REVENUE JURISDICTION.

Interpretation Clause.

228. In this Chapter, unless there be something repugnant in the subject or context—

"Land" includes the sites of villages, towns and cities; it also includes trees, growing crops and grass, fruit upon, and juice in, trees, rights of way, ferries, and fisheries.

"Land Revenue" means all sums and payments in money or in kind, received or claimable by, or on behalf of, Government, from any person on account of land held by, or vested in, him, and any cess or rate authorized by Government under the provisions of any law for the time being in force.

Saving of provisions of Pension's Act.

229. Nothing in this Chapter shall affect any of the provisions of Act XXIII of 1871 (The Pensions Act).

Bar of certain suits.

230. Subject to the exceptions hereinafter appearing, and except as hereinbefore expressly provided, no civil court shall exercise jurisdiction as to any of the following matters:—

(*a*) Claims against Government relating to any property appertaining to the office of any hereditary officer appointed or recognized by Government or of any other village officer or servant; or

claims to perform the duties of any such officer or servant, or in respect of any injury caused by exclusion from such office or service; or

suits to set aside or avoid any order relating to such office or service or such officer or servant, which may be passed by Government, or any officer duly authorized in that behalf; or

claims against Government relating to lands declared by Government, or any officer duly authorized in that behalf to be held for any service whatsoever;

(*b*) Objections—

to the amount or incidence of any assessment of land revenue authorized by Government, or to the mode of assessment, or to the principle on which such assessment is fixed; or

to the validity or effect of the notification of survey or settlement, or of any notification determining the period of settlement;

(*c*) Claims connected with or arising out of any proceedings for the realization of land revenue, or the rendering of assistance by Government, or any officer duly authorized in that behalf to superior holders for the recovery of their dues from inferior holders; or

claims to set aside on account of irregularity, mistake or any other ground except fraud, sales for arrears of land revenue;

(*d*) Claims against Government—

(1) to be entered in the Revenue survey or settlement records or village papers as liable for the land revenue, or as superior holder, inferior holder, occupant, or tenant; or

(2) to have any entry made in any record of a Revenue survey or settlement; or

(3) to have any such entry either omitted or amended;

(*e*) the distribution of land or allotment of land revenue on partition of any estate under Bombay Act IV of 1868, or under this Regulation, or under any other law for the time being in force ;

(*f*) Claims for enhancement or abatement of rent under Section 92, or claims for lease or reciprocal engagements under Sections 100 and 101 ;

(*g*) Claims against Government to hold land wholly or partially free from payment of land revenue; or

to receive payments charged on or payable out of the land revenue; or

to set aside any cess or rate authorized by Government under the provisions of any law for the time being in force, or respecting the occupation of waste or vacant land belonging to Government;

(*h*) Claims regarding boundaries fixed under Bombay Act I of 1865 or under this Regulation, or under any other law for the time being in force, or to set aside any order passed by a competent officer under any such law with regard to boundary marks :

Provided that if any person claim to hold land wholly or partially exempt from payment of land revenue under

Proviso.

(*i*) any enactment for the time being in force expressly creating an exemption not before existing in favor of an individual, or of any class of persons, or expressly confirming such an exemption on the ground of its being shown in a public record, or of its having existed for a specified term of years ; or

(*j*) an instrument or sannad given by, or by order of, the Government;

Such claim shall be cognizable in the civil courts.

Illustrations to (*i*).

(1) It is enacted that when a specific limit to assessment has been established and preserved, the assessment shall not exceed such specific limit. A is the owner of land worth Rs. 100 for assessment. He claims to be assessed at Rs. 50 only on the strength of a course of dealing with him and his predecessors under which his land has not been more highly assessed. There is no exemption not before existing created by enactment, and A's claim is not cognizable in a civil court.

(2) It is enacted that land revenue shall not be leviable from any land held and entered in the land register as exempt. A claims to hold certain land as exempt on the ground that it has been so held by him and is so entered in the land register. This is an exemption expressly confirmed by enactment on the ground of its being shown in a public record, and A's claim is cognizable in a civil court.

(3) It is enacted that the Deputy Commissioner shall confirm. existing exemptions of all lands shown in certain maps to be exempt. A claims exemption alleging that his land is shown in the maps to be exempt. A's claim is cognizable in a civil court.

(4) It is enacted that assessment shall be fixed with reference to certain considerations and not with reference to others. This is not an enactment creating an exemption in favor of any individual or class, and no objection to an assessment under such an enactment is cognizable in a civil court.

Saving of certain suits.

231. Nothing in the preceding Section shall be held to prevent the civil courts from entertaining the following suits :—

(*a*) suits against Government to contest the amount claimed, or paid under protest, or recovered as land revenue, on the ground that such amount is in excess of the amount authorized in that behalf by Government, or that such amount had, previous to such claim, payment, or recovery, been satisfied, in whole or in part, or that the plaintiff, or the person whom he represents, is not the person liable for such amount ;

(*b*) suits between private parties for the purpose of establishing any private right although it may be affected by any entry in any record of a Revenue survey or settlement, or in any village papers ;

(*c*) suits between superior holders and inferior holders regarding the dues claimed or recovered from the latter upon any of the grounds specified in Clause (*a*) of this Section ;

and nothing in Clause (*b*) of the preceding Section shall be held to prevent the civil courts from entertaining suits, other than suits against Government, for possession of any land being a whole survey number or a recognized share of a survey number.

Bar of certain suits against Revenue officers.

232. Revenue officers shall not be liable to be sued for damages in any civil court for any act *bonâ-fide* done or ordered to be done by them as such, in pursuance of the provisions of any law for the time being in force.

If any Revenue officer absconds or does not attend when called on by his official superior, and if the Deputy Commissioner of the District proceeds against him or his sureties for public money, papers or property, according to the provisions of this Regulation, or of any law for the time being in force, such Deputy Commissioner shall not be liable to pay damages or costs in any suit brought against him by such officer or sureties, although it appears that a part only, or no part whatever, of the sum demanded was due from the officer so absconding or failing to attend, or that he was not in possession of the papers or property demanded of him.

Punishment or prosecution of Revenue officers no bar to civil remedies.

233. Nothing in any law for the time being in force which authorizes the punishment departmentally of any Revenue officer for any offence or breach of duty or which sanctions his prosecution criminally for such offence or breach, shall be held to bar any remedy which may be had in the civil court against such officer.

234. No civil court shall entertain any suit against Government on account of any act or omission of any Revenue officer, unless the plaintiff first proves that previously to bringing his suit, he has presented all such appeals allowed by the law for the time being in force, as, within the period of limitation allowed for bringing such suit, it was possible to present.

Suits not to be entertained unless plaintiff has exhausted right of appeal.

235. If, in the trial or investigation of any suit, claim or objection which, but for the provisions of this Chapter, might have been tried or investigated by a civil court, there arises any question on which the Government desires to have the decision of the Chief Court, the Government may cause a statement of the question to be prepared and may refer such question for the decision of the Chief Court.

Power of Government to refer questions for decision of Chief Court.

The Chief Court shall fix an early day for the hearing of the question referred, and cause notice of such day to be placed in the court-house.

The parties to the case may appear and be heard in the Chief Court in person, or by their Advocates or Pleaders.

The Chief Court, when it has heard and considered the case, shall send a copy of its decision, with the reasons therefor, under the seal of the Court, to the Government by which the reference was made, and the case shall be disposed of conformably to such decision.

If the Chief Court considers that any such statement is imperfectly framed, the Chief Court may return it for amendment.

The costs (if any) consequent on any such reference shall be dealt with as the Chief Court in each case directs.

236. If, in any suit instituted, or in any appeal presented, in a civil court, the Judge doubts whether he is precluded by this Chapter from taking cognizance of the suit or appeal, he may refer the matter to the Chief Court.

Power of Civil Judge to refer questions of jurisdiction to Chief Court.

The Chief Court may order the Judge making the reference either to proceed with the case or to return the plaint.

The order of the Chief Court on any such reference shall be final.

237. If the Chief Court consists of three or more Judges, every reference under Section 235 or Section 236 shall be heard by a Bench consisting of such number of Judges not less than three as the Chief Judge from time to time directs.

Composition of Bench.

238. No Munsiff, Subordinate Judge or Court of Small Causes shall receive or register a suit in which the Government or any officer of Government in his official capacity is a party; but in every such case, such Munsiff, Judge or Court shall refer the plaintiff to the District Judge in whose court alone such suit shall be instituted.

Reference of Government suits to District Judge.

239. Whenever any suit is brought in any District Court against Government,

Privileges of Government in suits defended by it.

or against any Revenue officer, and the Government undertakes the defence thereof,

it shall be lawful for the Government by a certificate signed by a Secretary thereto, to require that the trial of any such suit shall have precedence over the trial of any other suit or other civil proceeding then pending in such Court, and the Court shall give effect to every such requirement.

The privilege conferred on the Government by this Section shall *mutatis mutandis* apply to any appeal or second appeal against any decree in any such suit as is described in this Section.

STATEMENT OF OBJECTS AND REASONS.

The British Government intended to frame a Land Revenue Code for Mysore before the transfer of the administration to His Highness the Maharaja, but owing to various causes the measure had to be postponed. In December 1880, the Chief Commissioner reported to the Government of India as follows:—

"A formal Revenue Code, superseding the existing complicated rules on the subject, has yet to be framed; a recasting and codifying of the existing laws may also be required. The Chief Commissioner will do what he can in the matter within the next few months, but there can be no objection to the work being left to be completed by the Native Administration."

Accordingly, some time after the Rendition, (in the beginning of 1882,) the work was entrusted to a special officer who, after an examination of the rules existing in the Province and the laws elsewhere in force, submitted his proposals for a Mysore Revenue Code, and it was thereupon decided that such a Code might, with advantage, be based upon the Bombay Land Revenue Code, 1879, with such additions and modifications as local circumstances might render necessary.

This decision was chiefly due to the fact that the Bombay system of Revenue survey and settlement has been in force in the Province since 1869, and that the Rules framed under that system have been found to work satisfactorily.

The Revenue Law in Mysore is at present in a very unsatisfactory condition. It consists partly of Bombay Acts I of 1865 and IV of 1868 and of the Guarantees and Rules published thereunder, and partly of executive orders passed by the Chief Commissioner, either for general guidance or as decisions in particular cases. Whether such executive orders have the force of law is a question of considerable doubt and uncertainty. As an instance of such uncertainty, it may be mentioned that one of these executive orders gave to the Revenue authorities power to try and adjudicate upon cases involving proprietary and sub-proprietary title, and though the validity of such power has not been formally impugned, yet it has been held that civil courts have concurrent jurisdiction with Revenue tribunals in the cases above referred to. Again, the law relating to the acquisition of occupancy rights rests upon an executive order, the force of which is frequently called in question. The rules relating to the realization of land revenue and recovery of rent are imperfect. No definite procedure is laid down for Revenue officers in the investigation of matters requiring their decision, and no express rules exist as to the rights and obligations of land-lord and tenant. Under these circumstances, His Highness the Maharaja's Government are of opinion that the passing of a Land Revenue Code is a measure which is urgently required.

Such portions of the Draft Code as are based upon corresponding provisions of the Bombay Code call for no remark beyond the general one that they are in accord with the policy of the British Government as recognized in recent legislation for various parts of India.

Section 4 empowers the Government to appoint a Commissioner if hereafter considered necessary and to delegate to him the powers usually exercised by the Chief Controlling Revenue authority.

Section 17 affirms the existing obligation of holders of alienated villages to keep regular accounts and registers for their villages. Provision is also made for the deposit of

567

copies thereof with the Deputy Commissioner and for the preparation of such accounts and registers by Government agency when the Inamdars fail to keep or furnish them.

Sections 38 and 39 deal with encroachments on public roads and streets and protect Government rights to waste lands in towns and villages.

Section 40 saves the mining rights of Government, providing at the same time for compensation to be paid for surface rights of holders of land.

Sections 43 to 46 reproduce the existing rules as regards Government rights to forests and trees of the reserved kind.

Chapter VII deals with the rights and obligations of superior and inferior holders, and makes special provision for the protection of tenants holding alienated land under superior holders. In the absence of an express agreement, such tenants paying a rent in money are declared to have the rights of an occupant of unalienated land ; while other tenants, if continuously in occupation for 12 years, are declared to have a right of occupancy. Definite provision is made as to the grounds upon which the rents payable by such tenants are liable to enhancement or abatement, and as to the obligation of land-lords to grant written leases and of tenants to execute written reciprocal engagements, and for the mode of enforcing such obligation.

Chapter XIV declares what revenue matters are excluded from the jurisdiction of civil courts. It will be noted that under this Chapter the adjudication of proprietary rights will vest exclusively in civil courts, and that the only matters reserved for determination by Revenue authorities relate to the assessment of the Government revenue and its realization, and to the protection of tenant rights.

The Draft Code will be published in the official Gazette for public information.
